David Burke, MD, MA is the Department Chairman of Rehabilitation Medicine at Emory University School of Medicine, and is Chairman of the Board of the Emory Rehabilitation Hospital. His clinical expertise is in the care of the neurologic and musculoskeletal conditions of patients with traumatic brain injury. He has more than 100 peer review publications, and has spoken both nationally and internationally on his research interests ranging from traumatic brain injury to martial arts. He is the founder and Editor in Chief of *Rehab in Review*, the surveillance journal for the field of Physical Medicine and Rehabilitation which has been adopted by the ISPRM, the AAP and the WHO.
